# FROM HUMBLE BEGINNINGS, WE'VE TAKEN OLIVERI TO THE WORLD.

We've come a long way from an unassuming suburban factory where our business began way back in 1947. It was at Watkins and Starr, now Oliveri Solutions, a modest domestic metal fabricator in Adelaide, South Australia, that a highly skilled and dedicated team pioneered the deep drawing process in Australia.

It was the beginning of something extraordinary. Today, Oliveri is Australia's only commercial pressed bowl sink manufacturer and one of this country's best home grown success stories.

## **Australian made. Global success.**

Our design expertise and commitment to quality continue. We now import and distribute a wide range of taps, sinks and water filter systems across nine countries, including Australia, New Zealand, and the USA.

The vast range and superior design of our sinks and taps are enjoyed by homeowners around the world and the Oliveri name continues to be synonymous with style, quality, and home grown success.

## **Did you know?**

Our founders decided on the name 'Oliveri' in a local Adelaide restaurant, by voting on names written on napkins. The accent in Oliveri is the tick that sealed the deal!

## Laundry sinks 🇦🇺

No more wash day blues when you choose the right sink for your laundry /

### The Sink

In addition to our traditional, purpose-built laundry tubs, other sinks may be considered suitable for use in the laundry. Look for a single deep bowl for soaking clothes or filling buckets. If space is limited, go for a standard single bowl kitchen sink.

### Bench depth

Make sure your bench is deep enough for your sink. 600mm is the standard depth of a kitchen bench; however this is often not enough for a big laundry tub. Laundry sinks are generally bigger than kitchen sinks, and you'll have hoses tucked in behind your washing machine. We recommend a minimum 650mm deep benchtop in the laundry.

### Cabinet width

You'll also need to consider the size of your cabinets, as laundry sinks are normally larger than kitchen sinks. A large laundry tub may require even more space, for example the Oliveri T170S laundry tub needs a minimum cabinet width of 700mm.

### Bypass plumbing

The Oliveri Laundry range comes with bypass plumbing which will allow washing machine grey water to enter the drain even while the tub is in use.

# Sustainability

**At Oliveri, sustainability is a core value.  
We design products to stand the test of time.**

We are proud of our ISO 14001 certification, the international standard for effective environmental management, which we earned through our long-term commitment to sustainability.

We work with sustainable materials and operate on zero waste to landfill at our Adelaide factory. The durability of our long-lasting products also ensures a reduction in waste.

Our products are designed to stand the test of time. Our kitchen sinks come with a lifetime manufacturer's warranty and our tapware feature warranties lasting up to 15 years.

**Every drop counts**

All materials used in our bathroom packaging is 100% recyclable, and we are well on the way to ensuring all our kitchen packaging meets these same standards.
