

## Holdfast Vertical Lock Grab Rail

### HF814

Please install the Grab Rail according to this guide.

#### IMPORTANT

**Prior to installation, test fit the Grab Rail in both vertical and horizontal positions to ensure it does not obstruct doors, surfaces, fixtures or switches. Ensure the wall fixing screws are anchored into masonry or timber. Do not install them directly into plasterboard. After installation, test the Grab Rail to confirm stability and correct operation.**

**WARRANTY** This Grab Rail is warranted to be free from manufacturing defects for a period of 15 years replacement parts and 1 year labour.

Subject to the terms contained in the full warranty information available at <https://oliveri.com.au/service-and-warranty>, where a genuine manufacturing defect arises within the warranty period Oliveri will, at its election, repair the defect or replace the product.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

#### SERVICE

If the product requires servicing, please contact your installer. If the installer is satisfied that the problem is not due to poor installation, contact Oliveri's nominated Warranty Service Agent for assistance on:

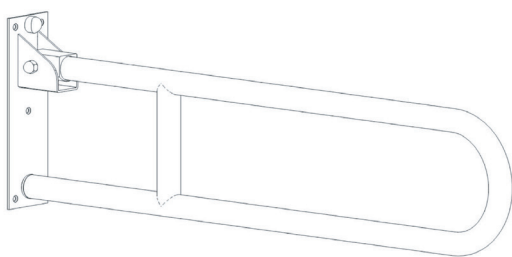

Ph: 08 8348 6444 (choose the after sales service and warranty option)

Email: [warranty@oliveri.com.au](mailto:warranty@oliveri.com.au)

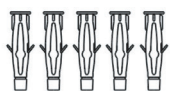

For full warranty information visit: <https://oliveri.com.au/service-and-warranty>

If a warranty service call finds that the product does not have a genuine manufacturing fault, our Warranty Service Agent reserves the right to pass on any call-out fee to the householder.

#### PARTS LIST

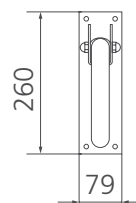

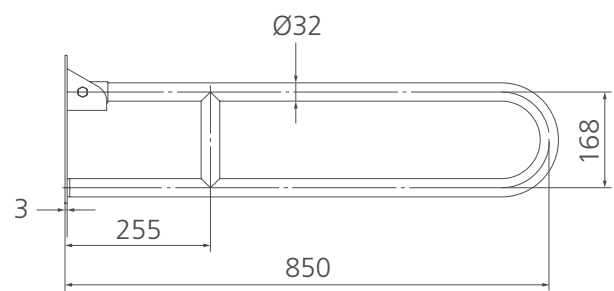

Grab rail assembly

Wall plugs

Screws

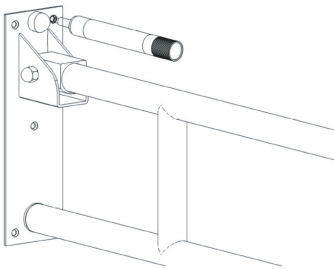

HF814

**IMPORTANT: Never use abrasive or harsh chemical cleaners. Wipe with warm soapy water to maintain surface finish.**

## Installation Steps

Preparation Tools: Drill driver, 10 mm drill bit, hammer and pencil.

1

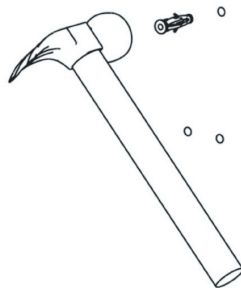

Position the grab rail on the wall in the required location making sure the base plate is square and level. Mark the fixing hole positions.

2

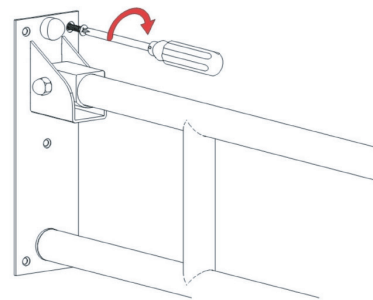

Drill 10 mm Ø holes to a depth of 80 mm at each marked screw location point. **NOTE** Use an appropriate drill bit for the wall material.

3

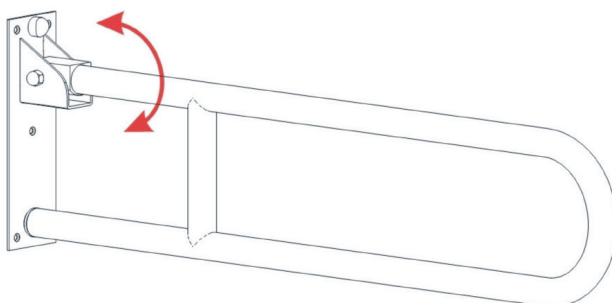

Hammer a wall plug into each base plate fixing hole that has been drilled.

4

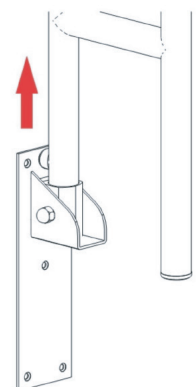

Begin fixing screws into the wall plugs and tighten fully to secure grab rail to the wall.

5

After securing grab rail to the wall, test grab rail operation by rotating the rail from horizontal to vertical positions.

**NOTE** When rail is locked in the vertical position, it must first be **LIFTED UP** before it can be rotated down to the horizontal position.

**IMPORTANT:** Ensure the mounting wall is strong enough to support the grab rail under load. Test after installation.
