This does not include the replacement of the filter or cartridge to extend the life of the filter or cartridge. The life of the filter cartridge is affected by water quality, usage and water pressure. The warranty only extends to the original purchaser of the unit.

This warranty does not cover the unit or a Replaceable Element of the unit where:

- The defect, fault or failure is attributable, or substantially attributable to misuse, abuse, accident, misapplication, neglect, freezing, oxidizing agents (including but not limited to chlorine, ozone, chloramines and other related components) or act of God;

- Any failure to install or use the unit in accordance with the Manufacturer's Instructions, the Installation and Operating manual or Oliveri Solutions' printed instructions; or

You acknowledge that the quality of water supplied and your water usage rate and influent water pressure may vary seasonally or over a period of time. In addition to this water characteristics can differ if the unit is relocated or the environment changes.

You acknowledge that Oliveri Solutions does not know your requirements and cannot and does not warrant that the unit is fit for the purpose for which you intend to use the unit or is appropriate for the purpose for which you intend to use the unit. Oliveri Solutions does not authorize others to assume any obligation on its behalf even if you inform them of the purpose for which you intend to use this unit.

WARNING Oliveri Solutions does not recommend making alterations to your existing plumbing to accommodate this filter system. If you wish to modify existing plumbing you must comply with AS 3500 and use a licensed plumber. Where internal water pressure exceeds 860 kPa a Watermark approved Pressure Limiting Valve must be installed prior to the filter system.

WARNING The contaminants or other substances removed or reduced by this water treatment system are not necessarily in your water supply. Do not use with water that is microbiologically unsafe or of an unknown quality without disinfection before or after the system.

IMPORTANT This filter is designed to be used with mains/city water supplies.

CAUTION Safely isolate the water supply prior to installing the filter system to avoid injury and property damage.

Accordingly, you may find that with new kitchen tapware the braided flex hose supplied with the new kitchen tap has a rubber internal. This rubber internal may, in some instances, cause taste and odour issues when the filtered water first comes into contact with the hose.

Should this occur then flush the filtered water through the hose over a period of time to remove taste and odour issues.
